The Art Shop goes avant-garde this summer and is spicing things up with the introduction of *The Asencio Collection of Fine Art Prints* an exciting new series by internationally acclaimed artist *Henry Asencio* a California contemporary painter. His compelling sensual figurative abstract works *Celebrate the Female Form* and the *Essence of Woman*. Every piece evokes the underlying theme *Solace in the midst of Chaos*.

The Art Shop welcomes you to come in to find both your solace and that perfect piece of art.
